Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-12 Claim are rejected under 35 U.S.C. 102(e) as being anticipated by Lui et al U.S. Publication Number 2001/0049499 A1.

Lui et al describes a tearable hemostasis valve comprising a valve body (10), a first grip tab (40) attached to the valve body at a first point, a second grip tab (32) attached to the valve body at a second point, a score line (22) on the valve body between the first and second points, a first membrane (112) disposed within the valve body bonded to and integral to the valve body; and a snap-fit arrangement coupled to a distal end of the valve body (122), wherein the snap-fit arrangement is adapted to couple onto an annular hub of a tubular medical device (23, see fig 34).

Moreover, Lui et al discloses that the membrane (112) comprises a material of a first durometer (Paragraph 7) with a score (29) and the valve comprises a material of a second durometer (Paragraph 12) and the second durometer is higher than the first. Additionally Lui

teaches that the valve further comprises a second membrane (28) disposed within the valve body, parallel to the first membrane and that two membrane are self-sealing.

Response to Arguments

Applicant's arguments filed 10/03/2006 have been fully considered but they are not persuasive. Applicant argues that prior art reference Lui as described above fails to disclose a snap-fit arrangement on the distal end of the valve body adapted to couple onto an annular hub of a tubular medical device. However as described above, Lui does describe such an arrangement, wherein the snap-fit arrangement (122) is adapted to couple onto an annular hub of a tubular medical device (23, see fig 34).

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
